

Bonus Usage Rights

Use every bonus in this bundle as your own bonus — on your promotions, for your buyers.

Granted by Benjamin Hübner · IM Dominator · imdominator.com

This is more than a stack of bonuses — it's a stack you're allowed to **reuse**. You have the right to hand any or all of these to your own audience as free bonuses on the offers you promote. Stop building a fresh bonus for every launch: this bundle becomes a bonus library you can pull from for years.

What you're allowed to do

With every asset in this bundle — the guides, the Chrome extension, the playbooks and the tools — you may:

- **Give them away as your own bonuses** in any affiliate or product promotion you run.
- **Host them on your own bonus delivery pages**, opt-in gifts and thank-you pages.
- **Offer them to your buyers and subscribers** as an incentive to purchase through your link.
- **Bundle them with any offer** you promote — one bonus, several, or the whole stack.
- **Name them in your emails, bridge pages and social posts** as part of your bonus package.
- **Reuse them across unlimited promotions** — there's no per-campaign limit and no expiry.

In plain terms: treat this bundle as your own bonus vault. Every time you promote an offer, you already have proven, high-value bonuses ready to attach — no building required.

The few things to keep in mind

So these stay valuable for everyone who has them, a small set of limits applies. You may **not**:

- Sell any individual bonus as a standalone paid product.
- Pass these usage rights (or resell / white-label rights) on to someone else.
- Claim you personally authored the guides or built the extension — leave the existing "Built by Benjamin Hübner / imdominator.com" credit intact where it appears.
- Present them in a way that implies partnership with, or endorsement by, any third-party brand or network.

Everything else is fair game. Give them away freely, as often as you like, to as many people as you like.

How to put this to work today

1. Pick the offer you're promoting next.
2. Choose 3–6 bonuses from this bundle that fit that offer's buyer.
3. Drop them onto your delivery page (your Promo Machine builds that page for you).
4. List them as bonus bullets in your emails and on your bridge page — done.

Your rights, in one line

You hold a personal, worldwide, perpetual right to use and give away every asset in this bundle as a bonus within your own promotions. Reuse them on every launch — that's exactly what they're here for.
